

*Plants o' Plenty!*

# Second Chance Sale Plant Summer

Detroit is keeping a watchful eye on the plants for you.

## It's finally warming up enough to PLANT!

It's been a cool spring. We've had night after night of lows in the 30s and 40s -- too cold for unprotected cold sensitive crops like tomatoes, peppers, basil and squash. But we are finally starting to warm up! It looks like after tonight, we are consistently in the 50s and 60s -- Hooray!

If you need to add a few more plants to your garden, look no further than your favorite Organic farm! Our plants are grown with care -- from seed -- using only Organic materials. We baby our plants and protect them with endomycorrhizal inoculants and other amendments that make them stronger and better able to resist pests and disease.

You'll find hundreds of Certified Organic transplants including tomatoes (40 varieties of heirlooms and hybrids!), peppers (hot & sweet), eggplant and herbs. You'll discover many hard-to-find and unique varieties. We will also sell farm-grown blackberry plants and irises along with veggie starts such as cucumbers and squash. Plus we have restocked our gorgeous Strawberry Hanging Baskets!

Here are some of the new items that weren't available at the Summer Sale:

- Ground/Husk Cherries
- Tomatillos
- More Herbs (Holy Basil, Roselle, Dill and more)
- More Lettuce
- Flowers (Dwarf Sunflowers, Nasturtium, Bachelor Buttons, Hollyhocks and more)
- Ginger Plants

**Here are the details:**

- **Friday, May 5 -- 10-3**
- **Saturday, May 6 -- 10-3**

*Looking forward to seeing you this weekend!*
