Happy Friday, Farm Friends!

Cook's Wall has been shrouded in a smoky haze this week from the wildfires in Canada. Has it been smoky in your neighborhood, too? It's amazing how the smoke can travel so far and impact so many people. Although the smoke has made our voices a bit scratchy, it's nothing like what folks further north are experiencing. Our Instagram feed has been full of farmers wearing N95 masks as they work. Thank goodness we've been spared that.

SPUDVILLE!

Yesterday was a big day for potatoes around here. And what a day it was! Team Plum Granny hauled out quite a load of wonderful spuds. How

many you may ask?

Yep -- that's one thousand five hundred and two pounds of potatoes in one day. Woo hoo!

TOMATO TOWN

Not to be outdone, the tomatoes let us know that they were big producers, too. Although not quite as many tomatoes as potatoes (they are lighter, you know!), we still got a pretty big haul on Tuesday -- 302 pounds from our little high tunnel!

Shear Terror?

Oh no! What happened here?!?

Crime scene? Predator attack? Thankfully, it is much less grim. Although

Tony and BB might object to calling the experience pleasant, the results were definitely refreshing! The Spring shear had been a bit delayed this year -- but we finally got it done before the temps really started heating up!
