*This Weekend! Oodles o' Plants!*

## ***Our 11th Annual***

Summer Plant Sale

Celebrate Earth Day Weekend and  
make this year's garden your best ever!

How exciting! Once again, our Summer Plant Sale coincides with [Earth Day](#) celebrations. How more Earth-Friendly can you get than Organic plants and fertilizers for your garden? And we'll also be helping the Earth a little piece of plastic at a time by collecting used plant packs, pots or trays to recycle at the [Agricultural Plastics Recycling Center](#) in Colfax. If ALL of us take an extra step, we CAN make a BIG difference!

You'll find hundreds of Certified Organic transplants including tomatoes (62 varieties of heirlooms and hybrids), peppers (hot & sweet), eggplant and herbs. You'll discover many hard-to-find and unique varieties. We will also sell farm-grown blackberry plants and Fig Trees along with veggie starts such as cucumbers, squash, kale and watermelon. And you'll find gorgeous Strawberry Hanging

Baskets and Raspberries as well as soil amendments and fertilizers to keep your plants healthy.

**Here are the details:**

- **Friday, April 19 -- 10 to 3**
- **Saturday, April 20 -- 10 to 3**
- **Sunday, April 21 -- 1 to 4**

*Please bring any plant trays from your visits to the garden center or shallow boxes (Costco berry boxes are great!). We are running short on boxes and would greatly appreciate your contributions!*

Also, on Sunday from 1-3:30, we are offering our workshop, *Growing Great Tomatoes at Home*. This workshop will include both classroom instruction and hands-on learning opportunities to improve your 'mater growing skills. We offered it for the first time last year and it got rave reviews!

Just a few spots remain -- so hurry! [Click here for more information.](#)
