

*Final Weekend! Continuing Our Biggest Sale Ever!*

***Our 12th Annual***

**Summer Organic Plant Sale**

**So many happy gardeners! So many happy plants!**

Y'all blew us away! We had such a terrific turnout for our first weekend of the Summer Plant Sale! And we're ready to do it again!

We've been potting up and restocking, so we're ready to greet you and help you find those perfect plants for your best garden ever.

You'll find hundreds of Certified Organic transplants including tomatoes (we still have 58 varieties of heirlooms and hybrids), peppers (28 varieties of hot & sweet), eggplant

and herbs. You'll discover many hard-to-find and unique varieties.

More flowers this weekend, too! And don't forget the fruit and spice! Strawberry hanging baskets, Blackberry and Raspberry plants, Ginger plants and Fig Trees. Keep your veggie crisper full this summer with veggie starts such as cucumbers, okra, squash, kale and watermelon. And you'll find a wide selection of soil amendments and fertilizers to keep your plants healthy.

And we've got a special treat for you! In addition to these gorgeous plants, we'll have things to eat. We'll have our first TOMATOES and Summer Squash of the season along with our delicious Snacking Cucumbers and Sweet Potatoes! Yum!

Plus, we'll be helping the Earth a little piece of plastic at a time by once again collecting used plant packs, pots or trays to recycle at the [Agricultural Plastics Recycling Center](#) in Colfax. If ALL of us take an extra step, we CAN make a BIG difference. Clear out that collection of used pots and plant packs from your garage!

**Here are the details:**

- **Friday, May 2 -- 10 to 3**
- **Saturday, May 3 -- 10 to 3**

*We look forward to seeing you here at the farm!*
